GNG High School Named National Unified Champion School by Special Olympics Maine

GNG High School continues to be recognized for their outstanding work, this time in the area of inclusion. The High School is one of 9 in the state to be honored as a National Unified Champion School by Special Olympics Maine this year. Tune in to the [10/1 school board business meeting](#) to hear more about the honor. Nice work team!

Attendance is Still Important!

As we conclude attendance awareness month, it's important to remember prioritizing school attendance is vital all year long. With cold and flu season coming, it's more important than ever to prioritize full school days when our students are well. Students who attend school regularly are more likely to graduate on schedule and excel academically. For more information on the importance of attendance and impact of chronic absenteeism, check out our [attendance social media post](#) or Count Me In! [Resources for Families.](#)
